SHAREPOINT END OF LIFE – WHAT NEXT?

PLAN TODAY FOR A SMOOTH TRANSITION TO THE MICROSOFT CLOUD

THE END OF SHAREPOINT 2013-2019 IN SIGHT

The end of SharePoint 2013-2019 on-premises (on-prem) instances is arriving. No later than 2026 will the Microsoft cloud strategy once again take hold. For a long time now, all significant new developments in the Microsoft ecosystem have been taking place in the cloud.

WHAT NEXT?

Remaining in the on-prem world entails risks: security vulnerabilities due to a lack of patching, high maintenance and upkeep costs, and regulatory issues. At the same time, the rigid on-prem systems barely allow flexible reactions to market requirements and changes.

For staff, the process has stalled, as they are deprived of the modern collaboration world of the cloud. Their satisfaction is decreasing. The same is true of specialist departments in the company, which have the task of working innovatively and economically at the same time.
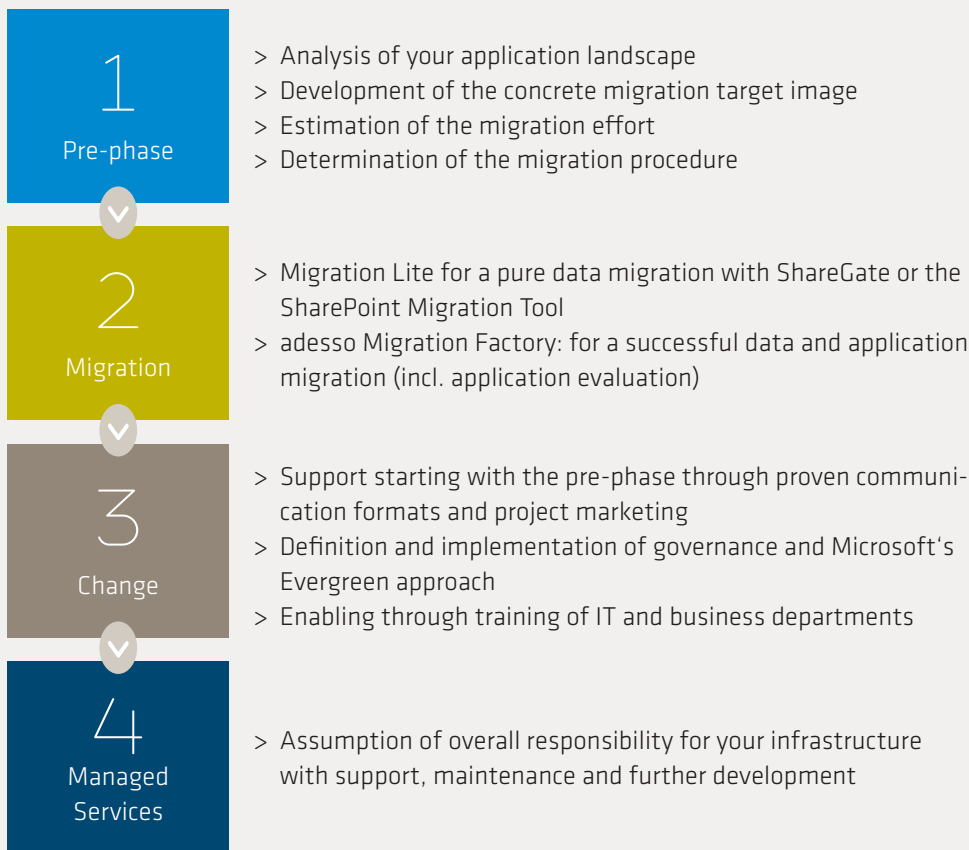

The switch from on-prem to the cloud will never result in a 1:1 migration. Instead, it means entering a new working world - for all staff in your company. This step needs to be well prepared and deliberated. We support you no matter where you currently find yourself in the process.

END OF LIFE (EOL) FOR YOUR SHARE-POINT SYSTEMS

SharePoint 2013
EOL since april 2023

SharePoint 2016
Mainstream Support ended in July 2021
EOL: 14.7.2021

SharePoint 2019
Mainstream Support ends in January 2024
EOL: 14.7.2024

THE 4 STEPS TOWARDS THE CLOUD

adesso migration projects are divided into four standardized phases with tried and tested service modules and accompanying change services from our experts.

1 Pre-phase

> Analysis of your application landscape
> Development of the concrete migration target image
> Estimation of the migration effort
> Determination of the migration procedure

2 Migration

> Migration Lite for a pure data migration with ShareGate or the SharePoint Migration Tool
> adesso Migration Factory: for a successful data and application migration (incl. application evaluation)

3 Change

> Support starting with the pre-phase through proven communication formats and project marketing
> Definition and implementation of governance and Microsoft's Evergreen approach
> Enabling through training of IT and business departments

4 Managed Services

> Assumption of overall responsibility for your infrastructure with support, maintenance and further development

BENEFIT FROM

✓ our many years of experience with complex migration projects and our tried-and-tested approach.

✓ the security of a professionally executed migration of your legacy systems.

✓ a solid start for your staff into the modern cloud-based working world, tailored to the needs of your company.
