

# MAKING SUSTAINABILITY ACCESSIBLE

## A COMPREHENSIVE DATA MANAGEMENT PLATFORM

*One major challenge for organizations is to effectively collect and analyze data to measure and report their sustainability performance. Soon also mid-sized and small companies are obliged to report on it.*

In detail, this requires integrating sustainable practices into core operations while managing economic viability, regulatory compliance, and stakeholder expectations. It also entails navigating complex supply chains, implementing sustainable technologies, and fostering a culture of sustainability within the organization. These high requirements usually come with major challenges.

### ADDRESSING REPORTING REQUIREMENTS

Pelt8 is a comprehensive data management platform running as a standalone SaaS solution on Microsoft Azure. It helps customers accelerate their sustainability transformation journey. This extensible solution provides business transformation for organizations to gain a comprehensive, automated, and near real-time view into the emissions impact of their entire operations. Pelt8 enables organizations to record, report, and reduce their organization's carbon footprint across the entire enterprise and value chain.

### BENEFITS

- > Comprehensive and near real-time view into your environmental footprint across all emissions sources
- > Visibility into the total emissions footprint across operations
- > Centralizing data in a common format to measure, reduce, and report emissions

#### Complexity

High expertise required to comprehend the intricate nature of ever-changing regulatory mandates

#### Heavy data

Businesses must gather and report data, often on an unprecedented scale, regarding collection efforts

#### Daunting transition

Organization must deal with regulatory objectives to facilitate their transition to greater sustainability

„Only what gets measured, gets managed“ - **Peter Drucker**

## OPERATIONALIZATION & AUTOMATION

### 1st report

In the 1st cycle, the platform ensures that you are able to coordinate the data collection process, even if it's resource intensive.

#### Focus & Benefits

- > Fast company-wide user onboarding
- > Data collection documented for following iterations
- > Transparent emission factors

### Data quality

In the 2nd cycle, customers focus on improving the data quality and increasing the scope of the reporting.

#### Focus & Benefits

- > Defined goals, linked to measurable management KPIs
- > Improved processes & empowered users
- > KPIs cascade down to operations

### Automation

In the 3rd cycle, the focus is on automation to move from once-a-year reporting to a "live" dashboard.

#### Focus & Benefits

- > Forward-looking analytics & scenarios
- > Enabled organization to effectively record & report emission reduction.

## PLATFORM SETUP & IMPLEMENTATION

### Initialization (1- 2 weeks)

- > Define timeline, realization and stakeholder involvement
- > Determine data, quality controls and outcome format

### Platform setup (0.5 - 2 weeks)

- > Prepare platform based on req's, incl. organizational structure and reporting
- > Import existing report from library

### Admin training (1 - 4 weeks)

- > Train admin users, set up kick-off to onboard data collectors, initiate collection process
- > User training for data collectors

### Data collection (6 - 8 weeks)

- > Assist execution of efficient data collection and reporting process
- > Document sustainability data, ensure traceability

We are a designated Microsoft Partner with the special award «Solutions Partnership Microsoft Cloud»

### BUILD YOUR 1ST SUSTAINABILITY REPORT WITH ADESSO

With over 900 experts boasting extensive experience on Microsoft technologies, adesso is a preferred Microsoft Partner with the highest partner status and ranks as a Managed Partner in the top 1% of 35,000 partners worldwide. Leverage our industrial and technical expertise and the Pelt8 Data Management Platform to gain insights into your data, set industry-aligned sustainability targets, and reduction strategies to expedite your company sustainability journey.
