

# CHANGE MANAGEMENT FOR ENERGY BUSINESSES

NEW

OLD WAY

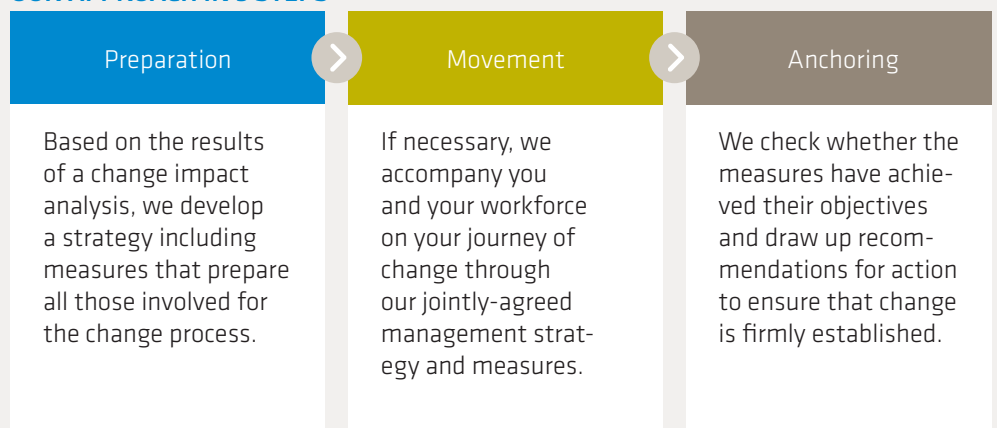

## THE BUILDING BLOCK FOR A SUCCESSFUL AND SUSTAINABLE DIGITAL TRANSFORMATION

*The energy industry is in a state of flux and digitalization is on the rise. As a result, the need for transformation projects is also growing among energy supply companies.*

### YOUR CHALLENGE

Sustainable changes are necessary to utilize the opportunities offered by the digital world. To do this, you need motivated employees who are ready for change. But how do you promote their acceptance and build the necessary expertise?

### OUR APPROACH IN 3 STEPS

„In the beginning there is openness for the unknown, followed by the courage to let go of the familiar and move forward on uncertain ground. Only then does the power of the new unfold.“

**Rosa María Rodríguez, Senior Consultant at adesso Schweiz AG**
