

TURBOCHARGE YOUR DATA JOURNEY

ENABLING YOUR BUSINESS WITH ANALYTICS AND DATA INSIGHTS

Is your data enabling comprehensive analysis of past performance, optimization of present operations, and informed strategic planning for the future? Are you fully leveraging the potential value inherent in the data readily available to you?

In an era characterized by the ubiquity of big but siloed data and instantaneous access to information, the imperative arises: how can you speed up deriving actionable insights? Irrespective of whether your data is structured, semi-structured, or unstructured, adesso offers professional services and data-driven solutions encompassing cloud-based, hybrid, and on-premises deployments. These solutions encompass real-time analytics, customer and data insights, predictive modeling, robust data governance, and state-of-the-art data warehousing capabilities. Embark on a tailored journey to Data-Driven Success with adesso data analytics experts supporting your subject matter experts.

KEY BENEFITS

Unlock Predictive Insights

> Harness the power of predictive analytics to anticipate trends and drive proactive decision-making

Operationalize Big Data

> Transform big data into a practical business asset, empowering informed decision-making in your day-to-day operations

Monetize Your Data

> Discover the untapped economic potential of your data assets, unlocking new avenues for business growth

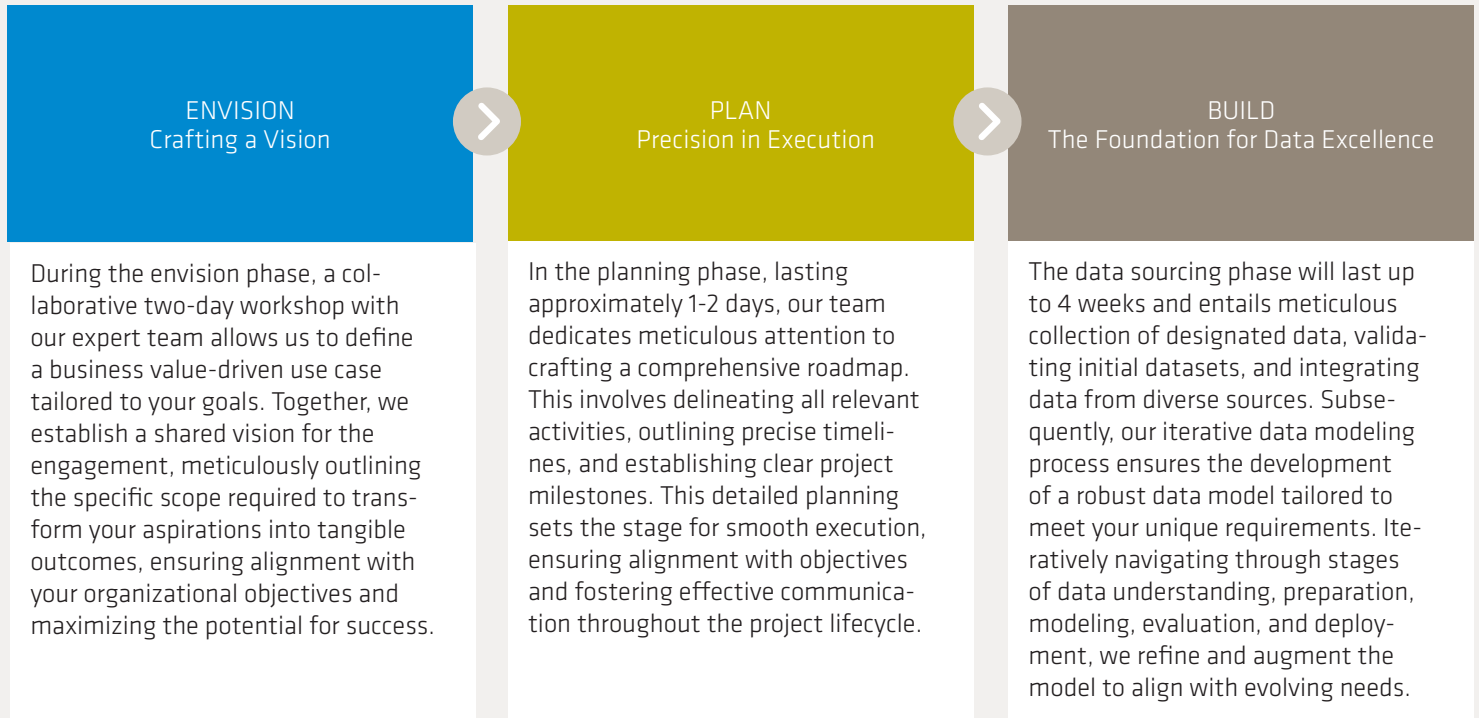

Leverage Cloud Efficiency

> Validate the cost-effectiveness of cloud platforms for data and analytics, ensuring scalability and efficiency

SCOPE & APPROACH

adesso offers a comprehensive five-week prototype engagement, powered by the Microsoft cloud services platform, meticulously crafted to align with one of your unique business scenarios. Identified during the envision phase, our approach revolves around crafting bespoke visualizations and an actionable implementation roadmap tailored to propel your enterprise towards data-centric decision-making.

- > Modernize with Microsoft Fabric or Azure SQL Server
- > Benefit from adesso SolutionCare support services

CONSIDERED TECHNOLOGIES

- > Microsoft Azure
- > Azure SQL Server
- > Microsoft Fabric
- > Power BI

“Data is the new oil. It’s valuable, but if unrefined, it cannot really be used. It has to be changed into gas, plastic, chemicals, etc., to create a valuable entity that drives profitable activity; so must data be broken down, analyzed for it to have value.” **Clive Humby, chief data scientist and co-founder of Starcount**
