

NETWORK AND SECURITY SERVICE

INTRODUCTION TO OUR NETWORK AND SECURITY SERVICES

BUSINESS READINESS AND SECURITY CHALLENGES

Your network infrastructure needs to be ready to support your **digital transformation goals** or to **implement a new business model**.

A robust **business security** is also paramount in the era of evolving cyber threats.

Our expertise addresses both key business readiness and security challenges.

In today's digital world, network and security are crucial. Our services optimize networks and protect digital assets. We offer tailored solutions for businesses of all sizes, from network optimization to advanced security measures. With a focus on results and continuous improvement, we help navigate challenges with confidence.

HEALTH CHECK METHODOLOGY

At the core of our offers is the goal to secure your business against emerging threats. Unlock the potential of your network security and readiness infrastructure with our comprehensive **Health Check methodology**. Our four-step process includes: Discovery, Penetration Testing, Analysis, and strategic Planning.

We assess your network's health for robust security and share our insights with a comprehensive report and a tailored execution plan before the project actually starts.

OUR FOUR-STEP PROCESS IN DETAIL

Discovery	Penetration Testing	Analysis	Planning
<ul style="list-style-type: none"> > Check status quo: current network topology, existing issues, IT strategy and operating model > Discuss use cases and network experience 	<ul style="list-style-type: none"> > Reconnaissance > Footprinting, scanning > Vulnerability > Assessment > Exploitation > Reporting 	<ul style="list-style-type: none"> > Architecture blueprints > Pentesting reports > Insights from previous projects 	<ul style="list-style-type: none"> > Implementation and configuration, Migrations, Integrations, Risk management > Test strategy, Deployment and rollout strategy
